Work Experience

Product Engineer Intern

PEPCODING | 2021 - PRESENT

I am working as a product engineer intern in the pepcoding institute. NADOS is a software that contains data structure (basic to expert level), dev, and other academic content

Frontend Developer and Tester

SPOXTALE | Feb. 1, 2022 – Present

I am working as a tester and a front-end developer; my major task is to find all the bugs in the application and report them. I have learnt, using many software also including Trello, slack. I also learned GIT.
